## Mediterranean COAST DAY 2012

*(Split, Croatia, 25 September 2012)*

The project is co-funded  
by the European Union, Instrument  
for Pre-Accession Assistance

## I. INTRODUCTION

The 2012 Mediterranean Coast Day central regional celebration was organised in Split, Croatia by PAP/RAC, as a part of the EU IPA Adriatic SHAPE project, and in collaboration with UNDP's "Coast" project. The main event was held on September 25 but the activities were extended over the whole week. The theme of the celebration was "The Voice of the Coast". The ICZM Protocol and its practical implementation highlights were presented by the directors, leaders and managers of the Mediterranean coastal programmes and projects.

The host of the event on 25 September was H.E. Mr. Mihael Zmajlović, Croatian Minister of Environmental and Nature Protection. The event was attended by high-level representatives of Croatian authorities as well as a number of distinguished foreign guests, UNEP/MAP and UNDP representatives, and members of the diplomatic corps.

All the events of the Mediterranean Coast Day 2012 were well covered by the media, TV, newspaper articles, Internet portals, etc.

## II. 25 September 2012 (Split, Vila Dalmacija) - The 2012 Mediterranean Coast Day Central Regional Celebration

The main event was organised in the beautiful Villa “Dalmacija”, generously offered for the occasion by the Municipality of Split. The host of the event was H.E. Mr. Mihael Zmajlović, Croatian Minister of Environmental and Nature Protection. The event was attended by high-level representatives of Croatian authorities, as well as a number of distinguished foreign guests, National Focal Points for PAP/RAC, representatives of UNEP/MAP and UNDP, members of the diplomatic corps, representatives of local authorities and institutions, SHAPE project partners, other EU project representatives, NGOs and the civil society.

### ➤ Main event

The main event started by welcome addresses.

One of the highlights of the welcome address by Mr. Zmajlović, Croatian Minister of Environmental and Nature Protection, was the announcement that the ICZM Protocol would soon be ratified by the Croatian Parliament. The Minister thanked all the participants, and wished to all a great Coast Day celebration, raising hopes for a further successful cooperation among Mediterranean countries.

Both Mr. Ante Sanader, Prefect of the Split-Dalmatia County, and Ms. Anđelka Visković, Deputy Mayor of the City of Split, warmly welcomed the announcement of the Minister concerning the future ratification of the Protocol by the Croatian Government. They stressed the challenges of its implementation at the local level, and insisted on the fact that the ratification would carry a strong message to the local population, especially with regard to the very sensitive topic of the construction banned in the coastal strip of 100 meters. In fact, special efforts will be made by the local stakeholders to implement on the ground, alongside with the population, the requirements of the Protocol, to guarantee a better coast to the future generations.

Ms. Louisa Vinton, United Nations Resident Coordinator in Croatia and Ms. Maria Luisa Silva Mejias, Executive Secretary and Coordinator of UN Environmental Programme/Mediterranean Action Plan, thanked the Croatian authorities and the local partners for their participation in the Coast Day events, and for showing strong commitment to the principles of the sustainable development, back bone to the ICZM Protocol.

Ms. Željka Škaričić, Director of PAP/RAC, informed the participants that until then 6 countries had ratified the ICZM Protocol. She gave a brief overlook of Mediterranean demography and urbanisation, pointing out both threats and opportunities in coastal zones. She reminded the audience of the fact that the ICZM Protocol is a unique document in the world providing a legal basis for ICZM and that, as such, it represented an excellent tool for Mediterranean decision makers to better integrate the principles of sustainable development in the regulations and management of coastal areas. Ms. Škaričić’s presentation is attached in Annex II.

The Programme of the celebration is available in Annex I and the list of participants in Annex IX.

*The project is co-funded  
by the European Union,  
Instrument for Pre-Accession  
Assistance*

The ICZM Protocol and its practical implementation highlights were presented by the directors, leaders and managers of the Mediterranean coastal programmes and projects:

- Ms. Sanja Lješковиć-Mitrović, Deputy Minister of the Ministry of Sustainable Development and Tourism of Montenegro, presented the process of integration of ICZM principles in building a Spatial Planning Plan in Montenegro. Her presentation was focused on explaining the main steps of the ongoing implementation of the CAMP Montenegro projects, its difficulties and achievements. Ms. Lješковиć-Mitrović's presentation is attached in Annex III.
- Ms. Elisa Andreolli, Consultant for the IPA Adriatic SHAPE Project from the Thetis company, presented an overlook on Marine Spatial Planning processes. She identified specific challenges when presenting the SHAPE project, and pointed out the challenges of building a new and common policy to bridge ICZM and MSP. Ms. Andreolli's presentation is attached in Annex IV.
- Mr. Marko Prem, Deputy Director of PAP/RAC, presented the challenges of implementing efficient coordination mechanisms, a key step for ICZM implementation on the ground. Using the practical example of the CAMP Levante de Almeria project in Spain, which was in its final phase of implementation, he stressed the crucial need for strong vertical and horizontal coordination mechanisms in ICZM processes. Mr. Prem's presentation is attached in Annex V.
- Ms. Monique Petard, General Counsellor of the canton of Montpellier X, Vice-president, in charge of environment, sustainable development and Agenda 21, presented the ongoing coastal restoration project in the Hérault province of France. She gave a specific insight into the integrated management project of the coastal zone of Thau, sharing her experience, as a local decision maker, in the field of participatory processes, where compromise is essential to build long-time strategies and effective actions for a sustainable development. Ms. Petard's presentation is attached in Annex VI.
- Mr. Gojko Berlenji, Project Manager of the UNDP COAST project, presented the COAST project which aims at a sustainable development of coastal zones of Dalmatia. The project started in 2007 to be concluded in 2013. Mr. Berlenji gave an overlook of the actions undertaken, which encouraged initiatives for the preservation and valorisation of local ecological diversity and cultural identity, and the future follow-up activities. The emphasis of his presentation was on the steps of the project in building a successful local community of partners, committed to the sustainable development of their territory. Mr. Berlenji's presentation is attached in Annex VII.
- Ms. Marina Marković, Programme Officer at PAP/RAC, presented the history of the Coast Day event, which started in 2007 as a small awareness-raising campaign on the role of ICZM for the sustainable development of the Mediterranean coasts, to grow to become an international event organised at national levels. This success story is to be continued, and one of the next steps would be the official adoption of the Mediterranean Coast Day as an official event by the Contracting Parties to the Barcelona Convention. Ms. Marković's presentation is attached in Annex VIII.

### ➤ Afternoon events

In the second, more casual part, groups of children and adolescents presented the results of the activities preceding the main event. Namely, the main focus of those activities was on the young population with the intention to raise their awareness of the values and problems of the coast.

The celebrations were concluded on September 28 by a gala concert on Riva (the Split waterfront promenade). The numerous audience, including Mr. Ivo Josipović, President of Croatia, enjoyed performances by Oliver Dragojević, one of the most famous Croatian singers and UNDP's ambassador for the coast, Valentina Fijačko, soprano, prima donna of the Split National Theatre, and three "klapa" (male vocal groups singing traditional Dalmatian songs).

*Conference room at Villa Dalmacija, with high ranking hosts and guests in the first row (left to right):*

- Ms. Monique Petard, General Counsellor of the canton of Montpellier X, Vice-president, in charge of environment, sustainable development and Agenda 21;

Neke od pozitivnih primjera dalmatinskog zelenog poduzetništva građani će moći vidjeti u videofilmu koji će biti prikazan tijekom koncerta 'Glas obale' 28. rujna, a njemu će 25. rujna prethoditi i sastanak ministara okoliša mediteranskih zemalja, koji će govoriti o održivom razvoju morskih područja

Oliver Dragojević, UNDP-ov je ambasador dobre volje

U svrhu poticanja djelatnosti koje svoj gospodarski rast temelje na prirodnim i tradicionalnim vrijednostima na kojima nastaju, projekt COAST Programa Ujedinjenih naroda za razvoj je 2008. godine pokrenuo Program za poticanje zelenog poduzetništva u suradnji sa županijskim razvojnim agencijama četiri-ju dalmatinskih županija. Dosada su 83 perspektivna zemlja projekta, ukupne vrijednosti gotovo 120.000.000 kuna, ostvarila pravo na PZZP pot-

poru iznosu od oko 8.000 kuna. Zeleni projekti PZZP pridonijeli su očuvanju i njih autohtonih sorti grožđa i crvenkavskog rika, višestruke sorte palagružonke, kulinarske, višegodnjak maslina (krvavice), autohtonih pasmina (govrdani), a zaslužni su i za širenje i promicanje ekološkog stinarstva, vinogradarstva i vinarstva te ekološkog goja voća, povrća te ostalih tradicionalnih bilja u Hrvatskoj. Tu su i školjkarstvo i ribarstvo...

Neke od pozitivnih mjera dalmatinskog zelenog poduzetništva građani će moći vidjeti u videofilmu koji će biti prikazan tijekom koncerta "Glas obale" 28. rujna. ZAVRŠENA MEDITERANSKA MANIFESTACIJA

# Josipović na koncertu za zaštitu mora i obale

•• Svoj glas za zaštitu mora i obale dao je i hrvatski predsjednik Ivo Josipović svojim dolaskom na koncert "Glas obale", održan ovog petka na Rivi u organizaciji Programa Ujedinjenih naroda za razvoj (UNDP) i Centra za regionalne aktivnosti UNEP-a. Odlično raspoložen predsjednik je sat i pol proveo na Rivi u prvom redovima (stajalištem) rukujući se i fotografirajući s građanima koji su mu razdragani zapjevali pjesmu "Lipo ime tvo". A Ivo je osmijehom na licu uživao u koncertu na kojem su nastupili klapa Cambli, Sveti Juraj HR i Zrnovnica, Valentina Fijačko, primadonna splitskog HNK, te Oliver Dragojević. UN-

DP-ov ambasador dobre volje za dalmatinsku obalu.

Koncertom "Glas obale" završava svečanost obilježavanja šestog Mediteranskog Dana obale. Hrvatska i Split ove su godine imali čast biti domaćinom za cijeli Mediteran Dana obale, jedinstvene manifestacije kojoj je cilj podizanje svijesti o prirodnim i gospodarskim vrijednostima i potencijalima obale.

Polu hrvatske obale je pod zaštitom, a ipak joj prijeti betonizacija i urbanizacija. Stoga je ovo poruka da trebamo čuvati ovu ljepotu po svaku cijenu – rekla je Louisa Vinton, koordinatorica UN-a i stalna predstavnikica UNDP-a za Hrvatsku. M.

#### Mediteran: druga strana medalje

- 35% stanovništva živi na obali
  - 285 M u 1970. → 428 M u 2000. → 523 M do 2025.
  - u 30 g. do 2000. gustoća stanovništva porasla u prosjeku 49%
- porast urbanog stanovništva
  - 378 M do 2025. g.
- izgrađenost
  - 25% veća izgrađenost obale od zaleđa
  - najizvijenije zemlje: u 1 km od obalne crte izgrađenost 45%
- 31% međunarodnih dolazaka
  - 248 M turista u 2005. g. → 312 M do 2025.

#### Mediteran: druga strana medalje

- više od 200 tankera dnevno
- 568 slučajeva zagađenja od 1990. (25/g.)
- 100 crnih točaka zagađenja

#### Odgovor: Barcelonska konvencija

#### Protokol o IUOP-u

- ✓ Potpisan u siječnju 2008. g.
- ✓ Stupio na snagu u ožujku 2011. g.
- ✓ 7 ratifikacija (Slovenija, Francuska, Albanija, Španjolska, Europska unija, Sirija, Crna Gora)

#### Protokol o IUOP-u

#### Akcijski plan 2012.-2019.

#### ✓ Protokol nalaže:

- definiiranje obalnog područja
- uspostavljanje zone odmaka gradnje
- izradu obalnih strategija
- integraciju (horizontalnu, vertikalnu, teritorijalnu)
- primjenu e-kosustavnog pristupa
- izradu PUO i SPUO
- izvještavanje o provedbi protokola

- ✓ **Cilj 1.** Učinkovita provedba Protokola na regionalnoj, nacionalnoj i lokalnoj razini.
- ✓ **Cilj 2.** Jačanje kapaciteta Ugovornih strana za provedbu Protokola i učinkovitu primjenu javnih politika, sredstava i alata IUOP-a.
- ✓ **Cilj 3.** Promicanje Protokola u mediteranskoj i drugim regijama svijeta te razvijanje sinergija s drugim konvencijama i međunarodnim ugovorima.

### Integriranje instrumenata IUOP u PPOP CG

Planiranje buduće namjene prostora u skladu sa:

- prihvatnim kapacitetima sredine (primjena optimalne metode za računanje prihvatnog kapaciteta sredine),
- ranjivošću (osjetljivošću) i atraktivnošću prostora,
- uvođenjem obalnog odmaka,
- javnim interesom.

### Integriranje instrumenata IUOP u PPOP CG

Obnavljanje područja neodrživog urbanog razvoja:

- zaštitom vrijednih područja obalnog biodiverziteta,
- definisanjem standarda za podršku visokokvalitetnom turizmu,
- podrškom tradicionalnim oblicima turizma na odabranim lokalitetima,
- podizanjem otpornosti na uticaj klimatskih promjena,

kroz utvrđivanje namjene prostora u skladu sa analizom ranjivosti (osjetljivosti) i pogodnosti obalnog područja u kontekstu utvrđivanja trendova neodrživog korišćenja prostora.

## Annex IV - ICZM and Marine Spatial Planning by Ms. Andreoli

### ICZM and Maritime Spatial Planning

Elisa Andreoli, Thetis

### MSP main references (1/2)

- 2007 (COM): EC Communication on Integrated Maritime Policy (IMP) for the EU.  
2 key concepts:
  - Strategic importance of Maritime Spatial Planning for decision making (one of the IMP tools):
  - Link ICZM – MSP «exchange of best practices among authorities in MSP and ICZM will be set up»
- 2008 (COM): Roadmap for **Maritime Spatial Planning (10 key principles for MSP)**
- 2010 (COM): **MSP** in the EU achievements and future development

### MSP main references (2/2)

- 2010 (COM): 2 main conclusions:
  - Broad agreement on the need for a common approach and interest to develop MSP
  - Different paths and scales: need for a more coherent approach to enhance the potential value of MSP

### Essential elements of MSP

FOUR DIMENSIONAL PROCESS

### The links between ICZM & MSP principles

MSP PRINCIPLES	ICZM PRINCIPLES
1 Using MSP according to area and type of activity	1 Holistic approach (thematic and geographic)
2 Defining objectives to guide MSP	2 A long-term perspective
3 Developing MSP in a transparent manner	3 Adaptive management
4 Stakeholder participation	4 Reflect local specificity
5 Coordination within Member States – simplifying decision processes	5 Work with natural processes and respect the carrying capacity of ecosystems
6 Ensuring the legal effect on national MSP	6 Involving all the parties concerned
7 Cross-border cooperation and consultation	7 Involvement of relevant administrative bodies at national, regional and local level
8 Incorporating monitoring and evaluation in the planning process	8 Combination of instruments to facilitate coherence between sectorial policy objectives
9 Achieving coherence between terrestrial and maritime spatial planning – relation with ICZM	
10 Adaptive management (planning needs to evolve with knowledge)	

### MSP in the Mediterranean

- The most urgent **need** for MSP in the Mediterranean exists in the coastal areas which are intensively used
- institutional and legal framework**: most countries in the Mediterranean have not yet developed legislation that accommodates MSP;
- important drivers for the establishment of crossborder/international MSP in the Adriatic region: **Trilateral Commission** (for the protection of the Adriatic) and the **Adriatic Ionian initiative** (given the good relationships between the different member and non-member countries and their fields of action/expertise)

From: Policy Research Corporation (EC Maritime Affairs, 2011)

### POKRETAČ: PROTOKOL IUOP

**Članak 15.**  
**Podizanje svijesti, obuka, obrazovanje i istraživanje**

1. Stranke se obavezuju da će na nacionalnoj, regionalnoj ili lokalnoj razini provoditi aktivnosti podizanja svijesti o integriranom upravljanju obalnim područjem te da će razvijati obrazovne programe, obuku i obrazovanje javnosti o ovoj temi.
2. Stranke će organizirati, izravno, multilateralno ili bilateralno, ili uz pomoć Organizacije, Centra ili relevantnih međunarodnih organizacija, obrazovne programe, obuku i obrazovanje javnosti o integriranom upravljanju obalnim područjima u cilju osiguranja njihovog održivog razvika.
3. Stranke će osigurati interdisciplinarna znanstvena istraživanja o integriranom upravljanju obalnim područjem o međusloženosti aktivnosti i njihovih odnosa na obalnim područjima. U tu svrhu Stranke bi trebale uspostaviti ili podržati/posrijeliti specijalizirane istraživačke centre. Svrha ovih istraživanja je, osobito, unaprijediti znanja o integriranom upravljanju obalnim područjem, doprinijeti informiranju javnosti o ključnim donosećim javnim i privatnim odlukama.
